RYDER BARENT

PAUL BERANEK MEMORIAL RECIPIENT

Last September, Ryder underwent a major brain surger to remove a tumor. It was diagnosed as polycystic astrocytoma. The tumor was at the center of his brain pushing on his pituitary gland. They were able to remove 75% of the tumor. A stunt was put in to help fluid drain and keep the pressure down. Ryder is now on two chemo meds to hopefully help keep the tumor from growing. He takes seven pills a day and has an MRI every three months. Ryder is in good spirits and is a fighter!
